GPRA HANDBOOK: GUIDANCE FOR SOR GRANTEES

Last updated: May 2025

Overview

This document provides guidance for completing and submitting the GPRA Client Outcomes Tool. It is intended to provide additional information to program staff who may be administering, tracking, and sending GPRAs. If you have further questions about the GPRA submission process or the information listed in this guide, please contact Aurrera Health Group at DHCSReporting@AurreraHealth.com. For further questions about GPRA, see the SAMHSA resources listed on the SOR GPRA resources page.

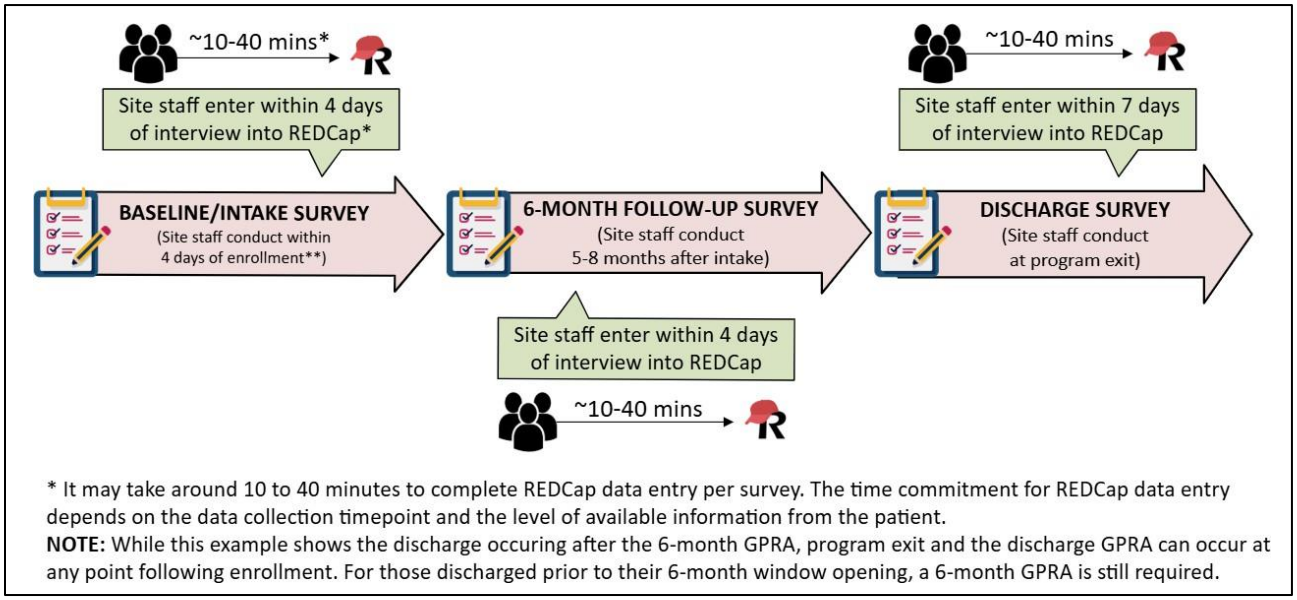
GPRA Under Multiple SAMHSA Grants

If your organization is funded by multiple SAMHSA grants, assign the GPRA survey to the grant that primarily funds the individual's services. Sites should have processes in place to ensure that clients receive surveys that correspond to the primary grant funding their services.

GPRA Data Collection Points



- For this grant, GPRA data are to be collected for each individual at three specific points:
  - Intake/baseline
  - Six months after the Intake
  - Discharge
- Intake should be collected on each new client no later than four (4) days after the client officially enters the treatment program. Program entry dates should be the **date which the client began receiving SOR funded services**. Intakes should be completed using the online survey available at: Redcap.link/collectGPRAData
- Follow-up surveys should be completed five to eight (5-8) months after the client's intake survey. Links to each client's follow-up survey queue are available in your site's report page. Links to each site's report page are available at the end of this document. Programs should have processes in place to ensure that

six-month follow-ups occur within the required timeframe. It is recommended that sites use an Excel template or other tracking system to track intakes, follow ups, and discharges.

- Discharge survey should be collected upon the client's discharge from the treatment program, **however your organization defines discharge.** If your organization does not have its own definition of discharge, the discharge interview should be completed when the client has had no contact with the program for 30 days. Links to each client's discharge survey queue are available in your site's report page. Links to each site's report page are available at the end of this document.
- Survey timing guidance from SAMHSA:
    - Within four (4) days of entry: Complete intake survey
    - Within seven (7) days of entry: If client leaves before seven (7) days and does not return, conduct an administrative discharge
    - Within seven (7) days – five (5) months of entry: If client leaves during this time, complete a discharge survey and a follow-up at six (6) months
    - Within five (5) 5 – eight (8) months of entry: Complete a follow-up survey.
    - After more than eight (8) months of entry: If client is discharged after eight (8) months, do a follow-up at six (6) months, and a discharge survey when they leave
- Administrative discharges:
    - If a client has not finished treatment, drops out, or is not present the day of discharge, the project should contact the client to conduct the interview. The grant will have 14 days after discharge to contact the client and conduct the in-person discharge interview.
    - If the interview has not been conducted by day 15, conduct an administrative discharge. In the discharge survey, when asked "did you conduct a follow-up interview" select "no" to proceed to the administrative discharge.

Clients who should receive GPRA

- Clients who receive opioid or stimulant use treatment or recovery services with SOR IV funding should receive GPRA. This includes:
    - Clients who are under or un-insured, who are receiving medication, counseling, or other services funded by the grant.

- Clients who receive medical services (medications, screening, immunizations, etc.) from a physician, nurse, or other provider whose salary is funded by the grant.
- Clients who receive counseling, peer support, or case management services from a staff member whose salary is funded by the grant.

» Excluded from this are:

- Clients receiving non-clinical services funded by the grant. Examples include:
  - Clients engaged only in prevention and education activities (e.g. a training).
  - Clients whose only interaction with a grant-funded staff member is with administrative/front desk support staff/driver.
  - Clients who are receiving screening or referral services, who have not yet been admitted for substance use treatment or recovery services.

Collecting Consent for GPRA

To collect client consent for GPRA, use the GPRA information sheet/consent form provided on the GPRA resources page. To collect consent:

» The staff member conducting the intake interview with the client will read the information sheet to the client before asking for the client's verbal consent to participate in GPRA.

» The staff member will check Yes/No based on client's response.

» The staff member will print and sign their own name to indicate the response has been collected.

For clients under 18, a parent or guardian must consent for their participation in GPRA. If the parent or guardian is not available to provide consent for the individual, GPRA cannot be conducted.

Do not send collected consent forms to Aurrera Health Group. These forms should be kept for your own records. Once the intake consent response has been collected, go to Redcap.link/collectGPRAData, fill in the staff/program information and select "Yes" to proceed with the rest of the interview; or "No" to indicate the client has not consented, and end the process.

Reason for Declining GPRA

The GPRA asks questions that are sensitive in nature, including questions about drug and alcohol use, mental health, sexual activity, HIV status, criminal activity and justice system involvement. The interviewer should communicate to clients about the sensitive nature of the questions and let them know they are free to decline the survey or skip any question.

Incentives

- SAMHSA allows the use of incentive payments for certain types of interviews.
- Incentives are permitted for completion of a 6-month follow-up interview, or discharge interviews where program staff must search for a client who has left the program or a client who has dropped out of a program. **Incentives are not permitted for GPRA intake interviews or routine GPRA discharge interviews.**
- A maximum cash value of $30 per interview is allowed. The incentives can include items such as food vouchers, transportation vouchers, or phone cards. Gift cards to restaurants or grocery stores are also allowed.
- Sites should implement a system to track gift cards provided to individuals for completing 6- month follow-up and discharge surveys where the client is hard to contact. Please use the GPRA Tracking Sheet Example on the GPRA Resources for SOR Contractors webpage to assist with tracking of incentives. If not using the GPRA Tracking Sheet Example, sites should develop a log system that tracks:
    - What client received the gift card (noted by client ID)
    - Type of survey (6-month follow-up or non-routine discharge)
    - Type of gift card (may be food voucher, transportation voucher, or phone card)
    - Amount (may be up to $30)
    - Date provided
    - Staff member providing the gift card
- GPRA incentives are separate from the $75 annual limit on contingency management incentives for Medicaid beneficiaries.

GPRA Data Transmission

All GPRA data will be submitted through the REDCap portal. There are two important links to use for entering data:

- **INTAKES:** Use Redcap.link/collectGPRAData to begin a new client intake.

- **FOLLOW-UP and DISCHARGE:** Use your site-specific Report link at the end of this handbook to access a link to discharges and follow-ups for completed client intakes.
- Sites may request access to their GPRA data or reports at any time by emailing DHCSReporting@Aurrerahealth.com.

Sites should track their submissions separately to ensure all submissions are received.

Additional Questions

For additional questions about GPRA, reference the FAQ document developed by Aurrera Health Group and the FAQ document developed by SAMHSA.

GPRA Tool Overview

Section & Topic	Reported by	Intake	Follow-up	Discharge
Section A				
• Record Management	Program Staff	✔	✔	✔

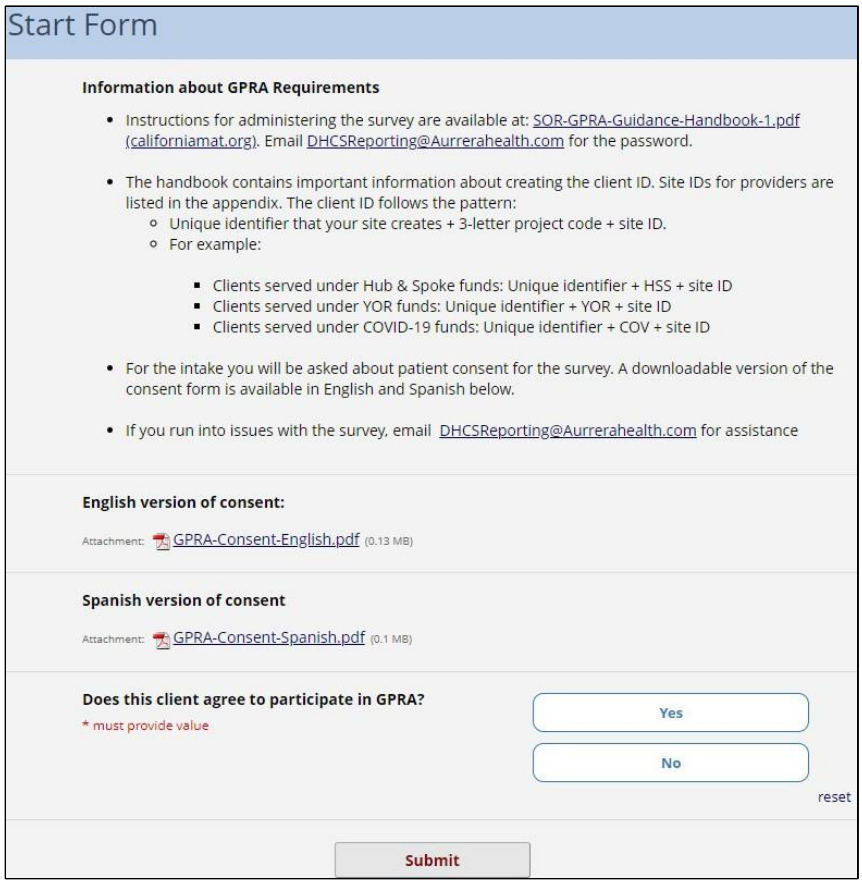
Section J – Discharge Status	Program Staff			✔
Section K – Services Received	Program Staff			✔

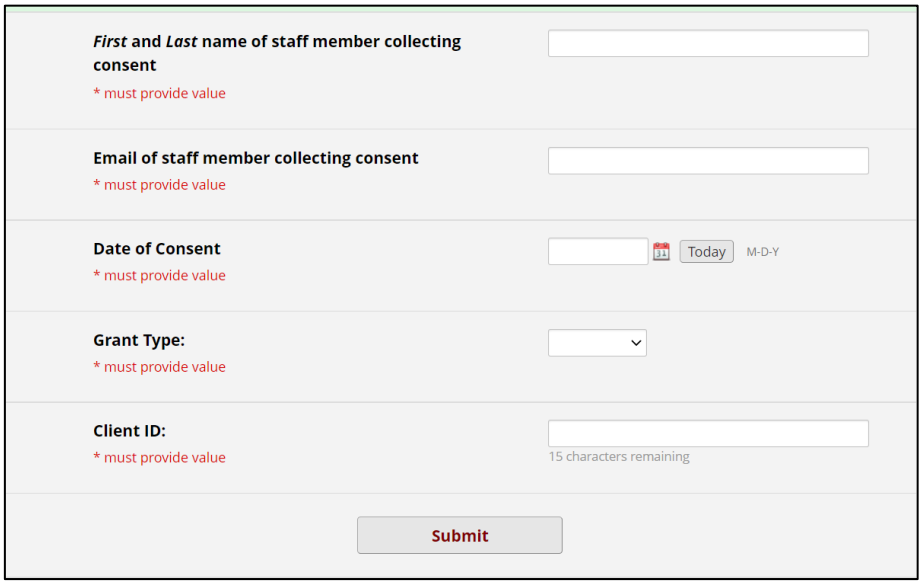
Intake Survey

Start Form



Guidance

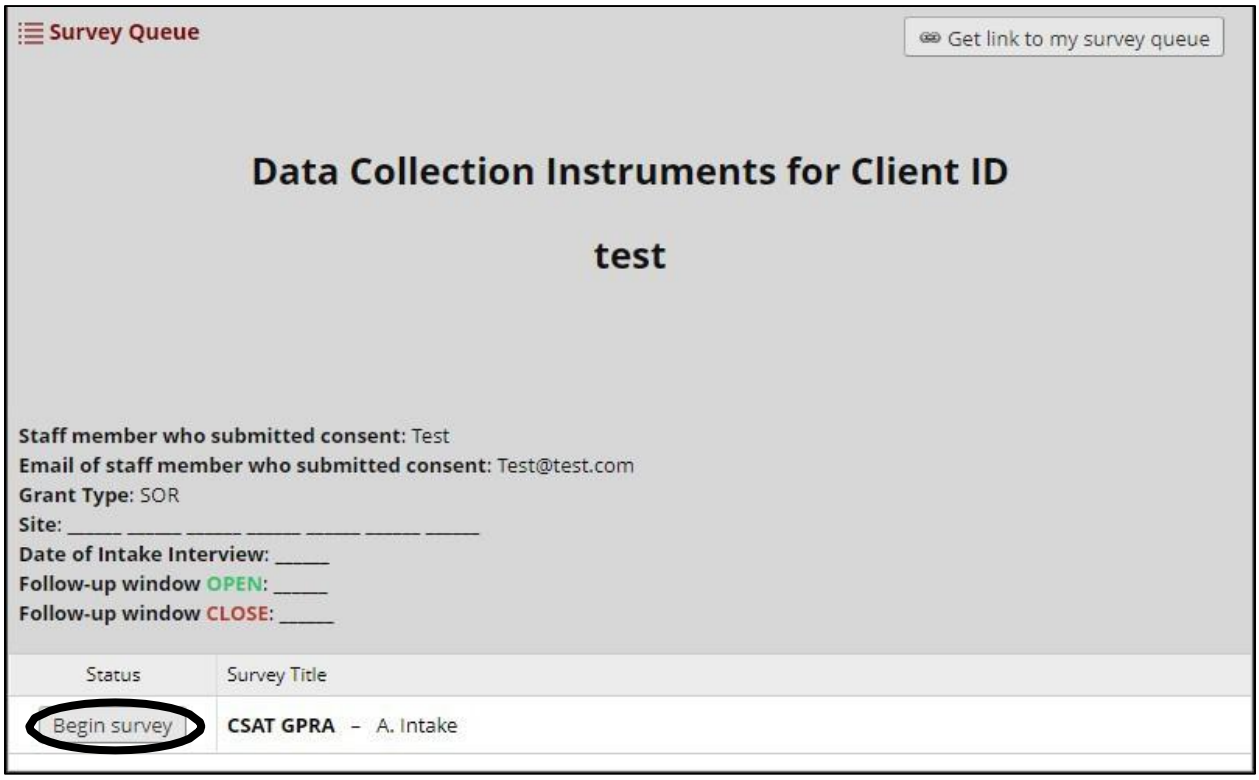
- Open redcap.link/CollectGPRAData in your browser.
- Begin by reviewing the consent form with the client. Ensure the client understands the purpose of the survey and that all information given is voluntary.
    - If the client consents to the survey proceed by selecting “Yes”
    - If the client does not consent to the survey proceed by selecting “No”



- Fill all fields with the information of the Staff member who is administering the GPRA.
- Select the Grant Type
    - SOR → State Opioid Response Grant
    - If SOR, then select the project
    - HSS → Hub & Spoke System
    - YOR → Youth Opioid Response
    - SSP → Low Barrier MAT at Syringe Service Programs
    - NMAT → Native MAT
    - MU → Medication Units
    - MSLF → MAT In State Licensed Facilities
- Select the site for that project from the dropdown menu that follows.
- Create the client ID. Begin by entering the unique identifier or prefix for this client provided by your site**:** *This should be a set of 4 numbers between 0000 and 9999 (ex: 1234).* Finish the client ID with the additional site identifier, available under the dropdown menu on the Start Form. Site identifiers are at the end of this document.
    - Clients served under Hub & Spoke funds → unique identifier + HSS + site identifier
    - Clients served under YOR funds → unique identifier + YOR + site identifier
    - Clients served under SSP→ unique identifier + SSP + site identifier

- Example Client ID: 1234HSSNAH01 (Client 1234 at Organization NAH01 under Hub & Spoke)

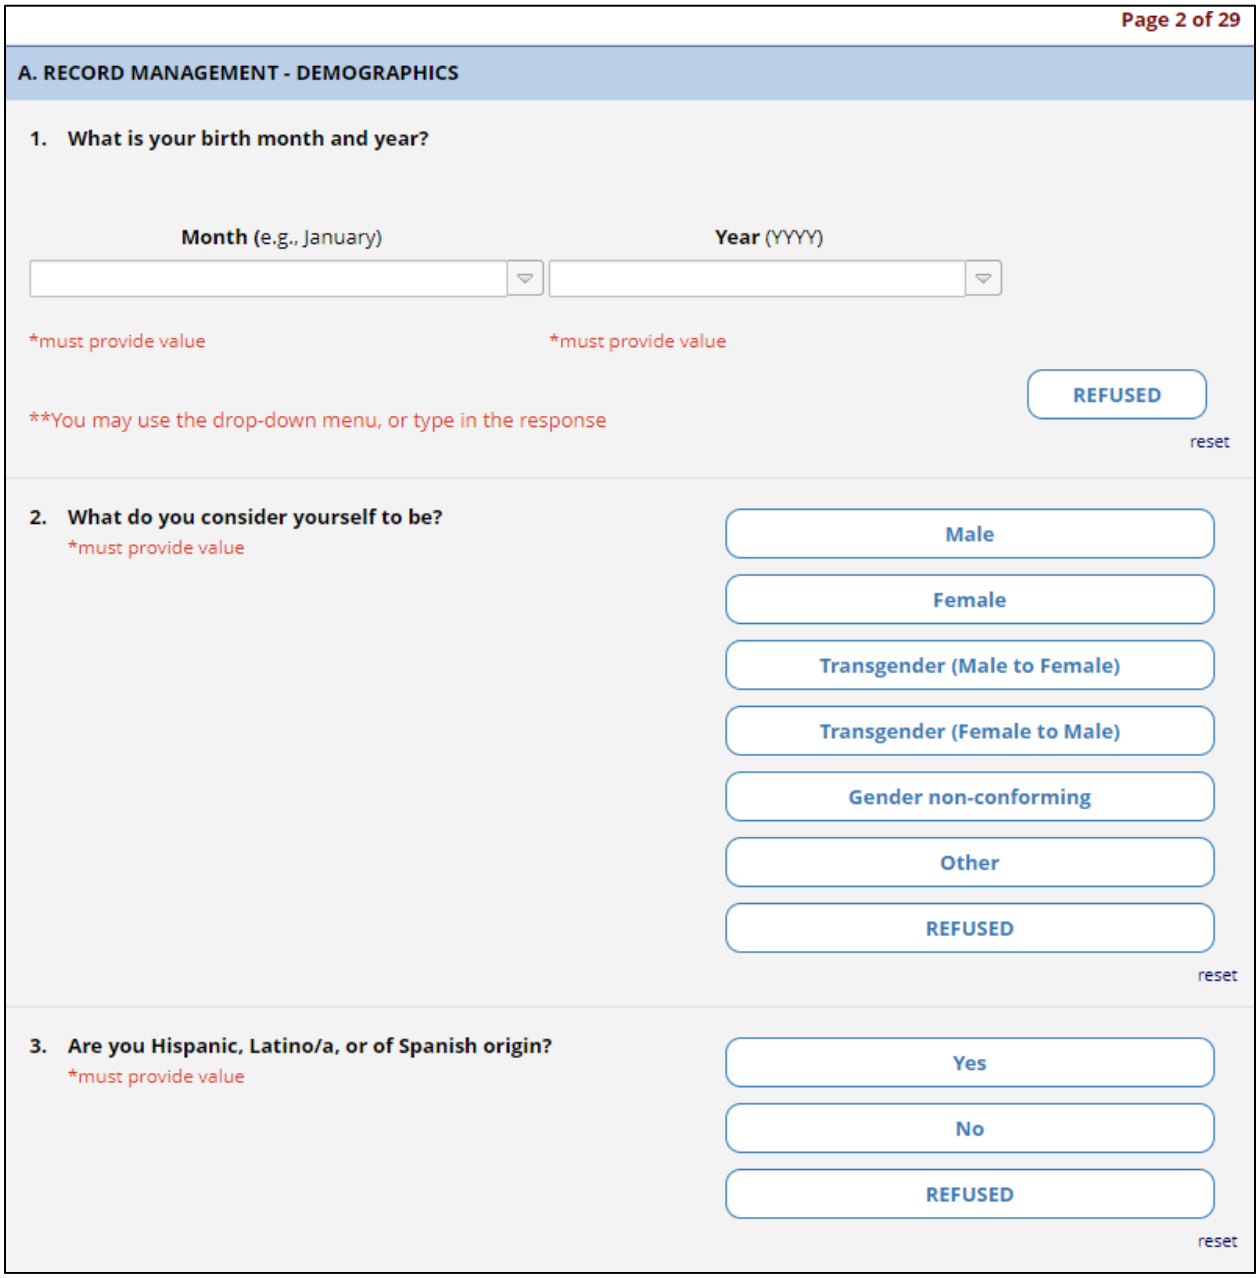
Intake Form



Guidance

- Review the Grant Type, Site, and Date to ensure the information is correct.
- To begin the GPRA intake select “Begin Survey”
- Fill out Section A. Demographics

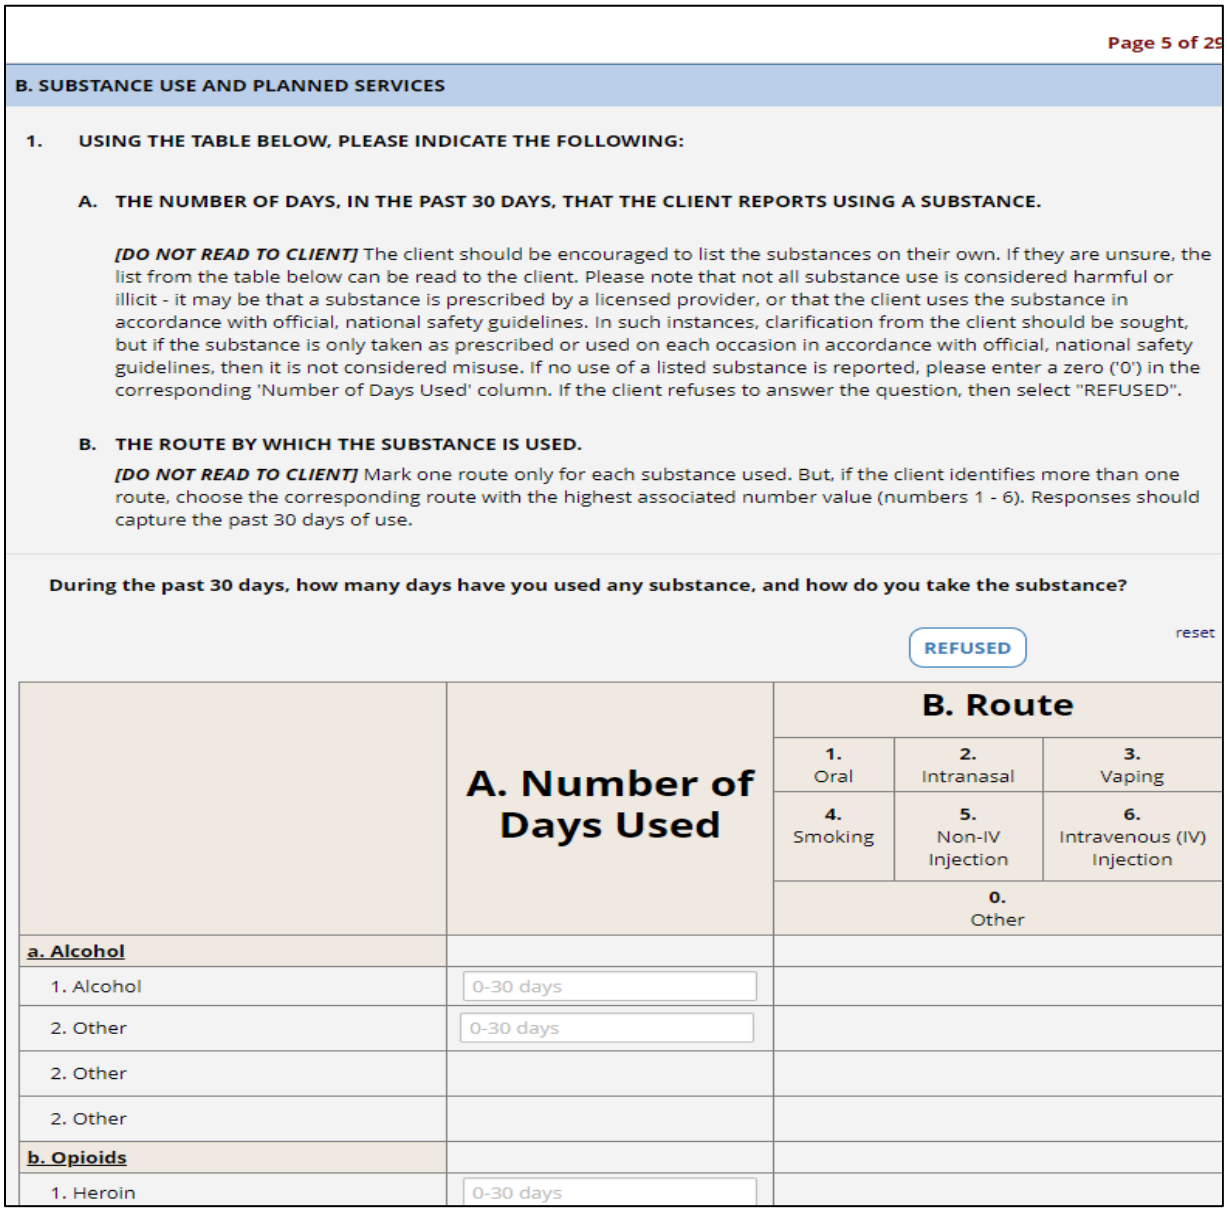
Section A, Demographics



Guidance

» Select the categories the client identifies.

Section B, Substance Use and Planned Services



Page 5 of 29

B. SUBSTANCE USE AND PLANNED SERVICES

1. USING THE TABLE BELOW, PLEASE INDICATE THE FOLLOWING:

A. THE NUMBER OF DAYS, IN THE PAST 30 DAYS, THAT THE CLIENT REPORTS USING A SUBSTANCE.

[DO NOT READ TO CLIENT] The client should be encouraged to list the substances on their own. If they are unsure, the list from the table below can be read to the client. Please note that not all substance use is considered harmful or illicit - it may be that a substance is prescribed by a licensed provider, or that the client uses the substance in accordance with official, national safety guidelines. In such instances, clarification from the client should be sought, but if the substance is only taken as prescribed or used on each occasion in accordance with official, national safety guidelines, then it is not considered misuse. If no use of a listed substance is reported, please enter a zero ('0') in the corresponding 'Number of Days Used' column. If the client refuses to answer the question, then select "REFUSED".

B. THE ROUTE BY WHICH THE SUBSTANCE IS USED.

[DO NOT READ TO CLIENT] Mark one route only for each substance used. But, if the client identifies more than one route, choose the corresponding route with the highest associated number value (numbers 1 - 6). Responses should capture the past 30 days of use.

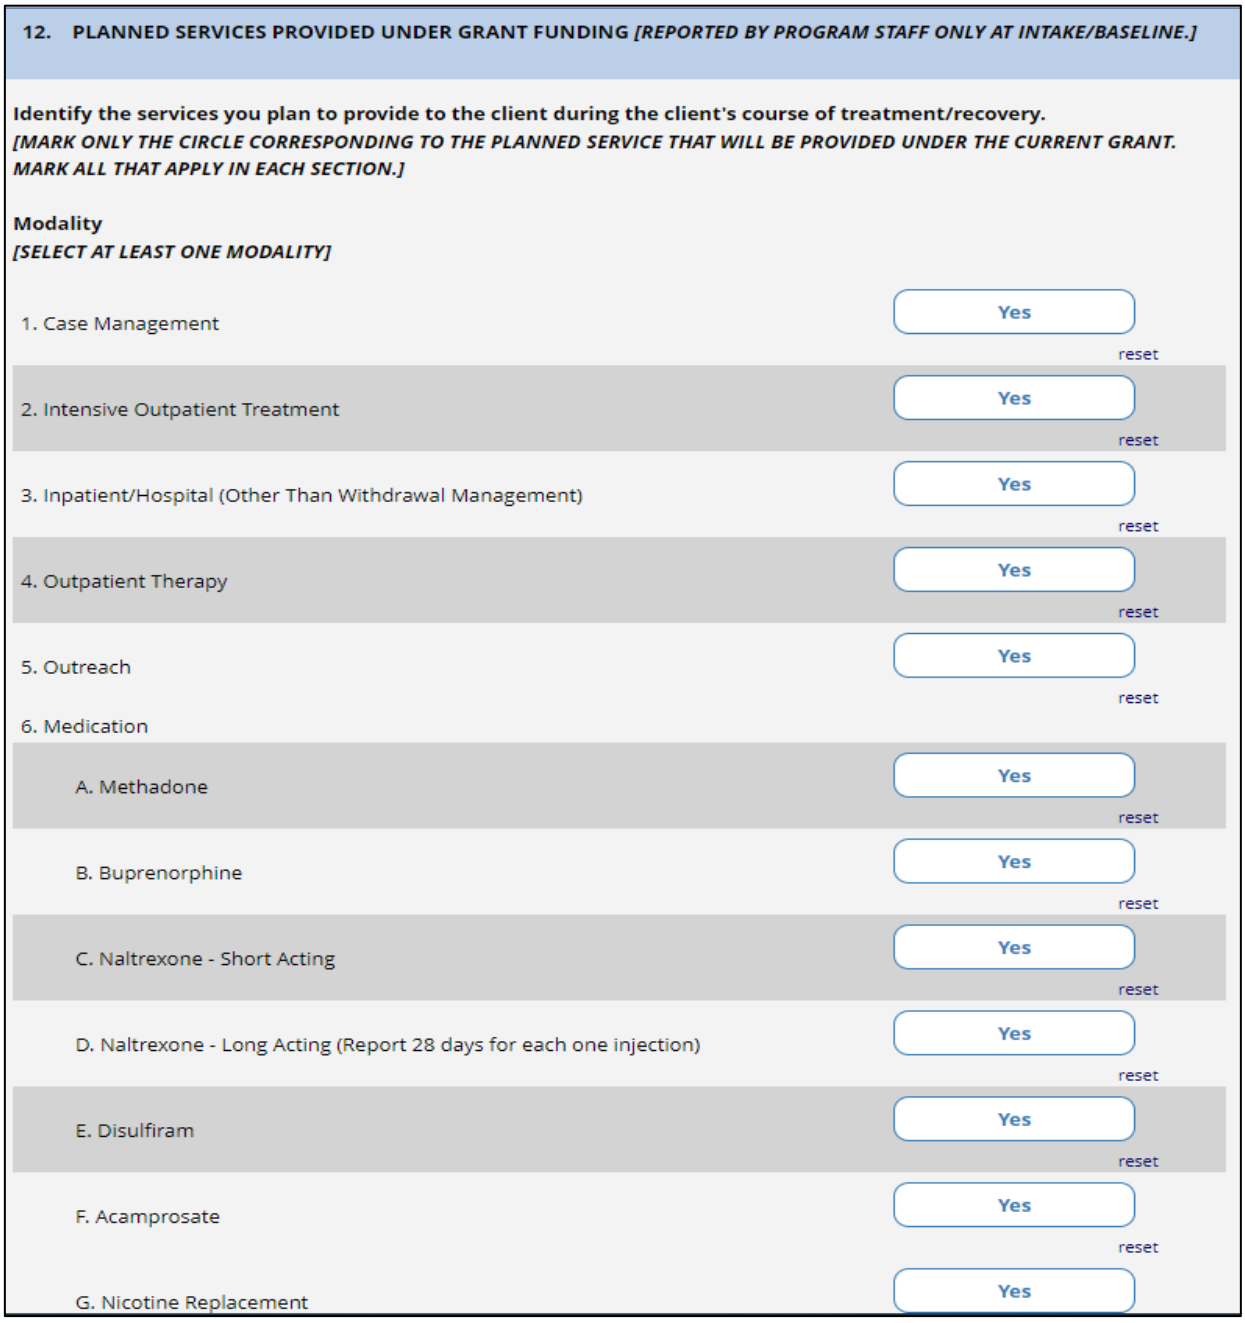
During the past 30 days, how many days have you used any substance, and how do you take the substance?

REFUSED reset

	A. Number of Days Used	B. Route		
		1. Oral	2. Intranasal	3. Vaping
		4. Smoking	5. Non-IV Injection	6. Intravenous (IV) Injection
		0. Other		
a. Alcohol				
1. Alcohol	0-30 days			
2. Other	0-30 days			
2. Other				
2. Other				
b. Opioids				
1. Heroin	0-30 days			

Guidance

- Ask an open-ended question such as “In the past 30 days, what substances have you used” and follow up questions to determine number of days each substance was used, and the route it was used.
    - While marijuana is a legal substance in the state of California, it is still an illegal substance federally and must be listed in GPRA as illegal drug use.
- For 2.a. - j., Select the number of days in the past month in which the client used the specific drug listed, if applicable. Also include the route of use. When multiple routes are used, use the *most severe* (for example, if an individual smokes and injects heroin, list only IV injection).



12. PLANNED SERVICES PROVIDED UNDER GRANT FUNDING *[REPORTED BY PROGRAM STAFF ONLY AT INTAKE/BASELINE.]*

Identify the services you plan to provide to the client during the client's course of treatment/recovery.
[MARK ONLY THE CIRCLE CORRESPONDING TO THE PLANNED SERVICE THAT WILL BE PROVIDED UNDER THE CURRENT GRANT. MARK ALL THAT APPLY IN EACH SECTION.]

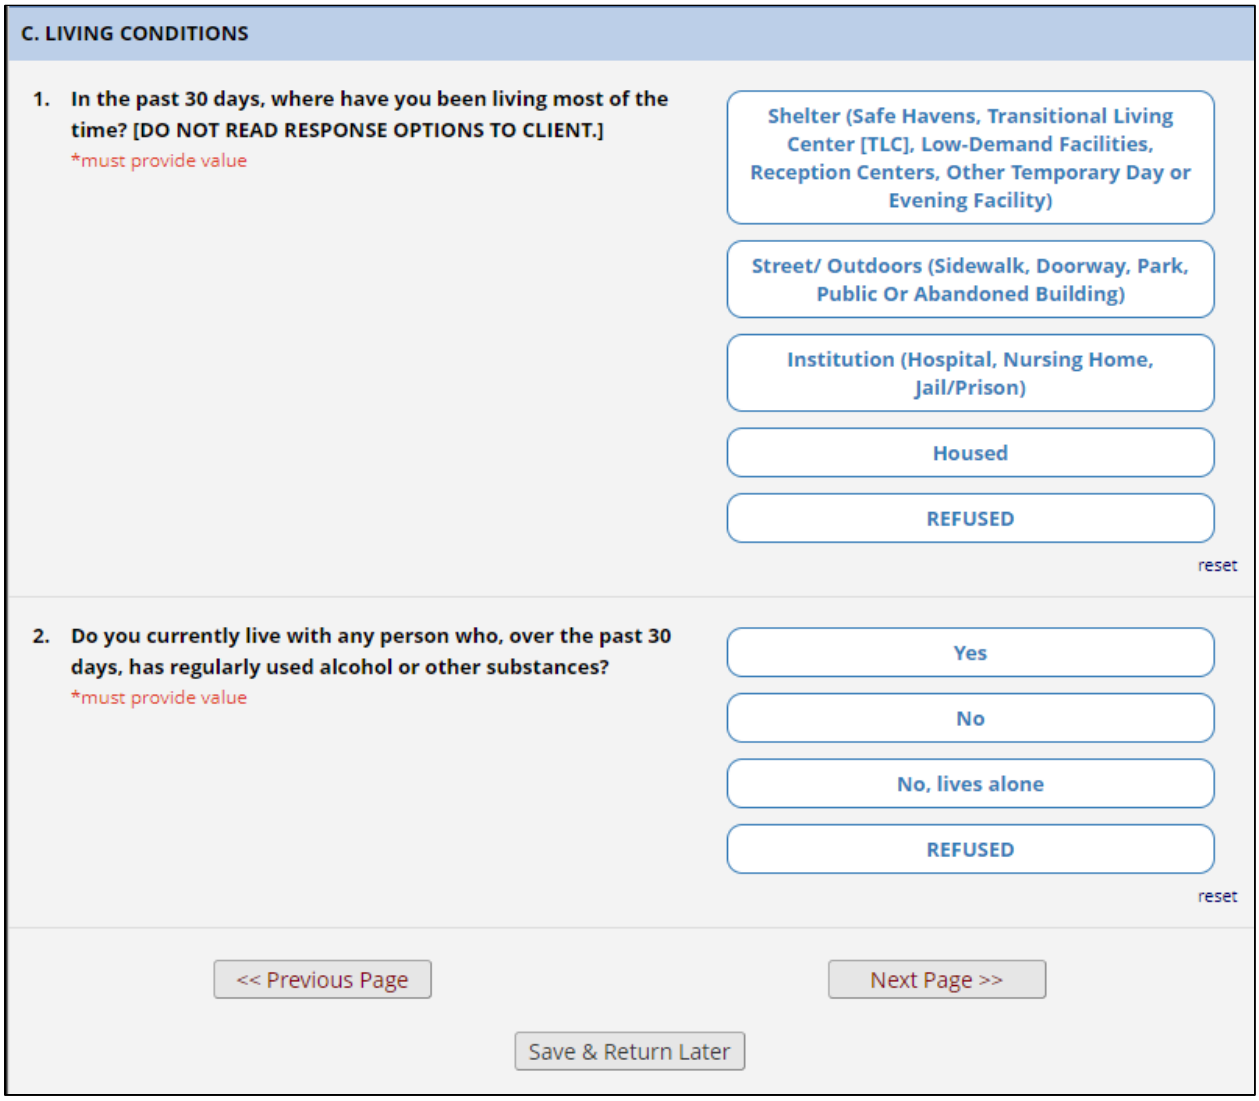
Modality
[SELECT AT LEAST ONE MODALITY]

1. Case Management	Yes / reset
2. Intensive Outpatient Treatment	Yes / reset
3. Inpatient/Hospital (Other Than Withdrawal Management)	Yes / reset
4. Outpatient Therapy	Yes / reset
5. Outreach	Yes / reset
6. Medication	
A. Methadone	Yes / reset
B. Buprenorphine	Yes / reset
C. Naltrexone - Short Acting	Yes / reset
D. Naltrexone - Long Acting (Report 28 days for each one injection)	Yes / reset
E. Disulfiram	Yes / reset
F. Acamprosate	Yes / reset
G. Nicotine Replacement	Yes

Guidance

- Select all services that the individual is planned to receive during their treatment
- Ensure at least one modality is selected in the “Planned Services” section.
- Ensure at least one service is selected in the “Treatment Services" section.

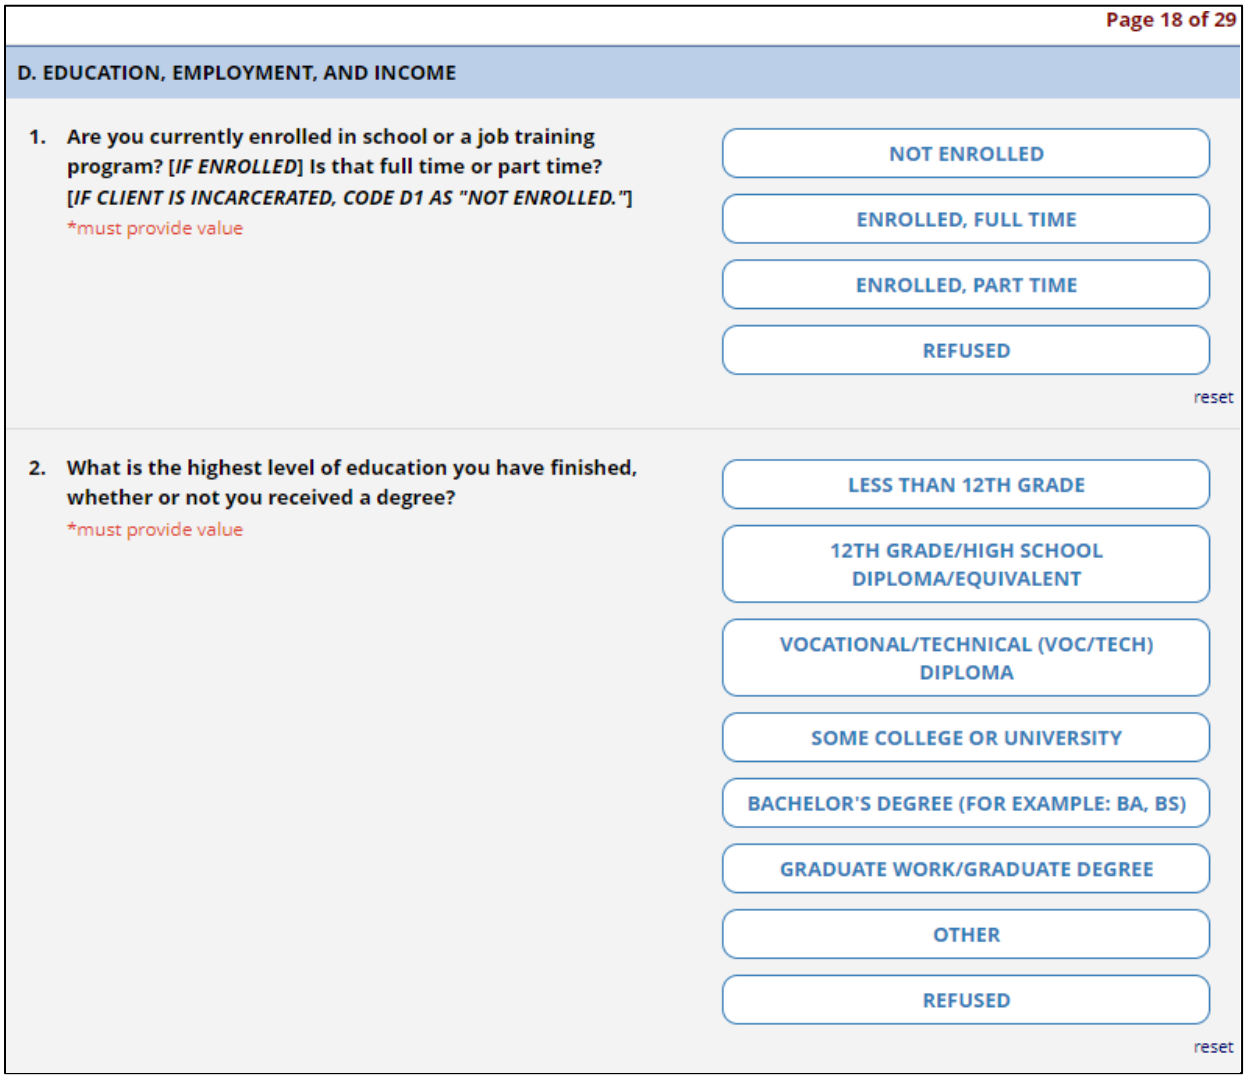
Section C, Living Conditions



Guidance

- Mark the client's response to questions about living conditions. If the client refuses or doesn't know, select the option for "refused" or "don't know."

Section D, Education, Employment, and Income



Guidance

» Select the responses the client indicates.

4. **Do you, individually, have enough money to pay for the following living expenses? Choose all that apply.**
*must provide value

- Food (reset)
- Clothing (reset)
- Transportation (reset)
- Rent/Housing (reset)
- Utilities (Gas/Water/Electric) (reset)
- Telephone Connection (Cell or Landline) (reset)
- Childcare (reset)
- Health Insurance (reset)
- REFUSED (reset)

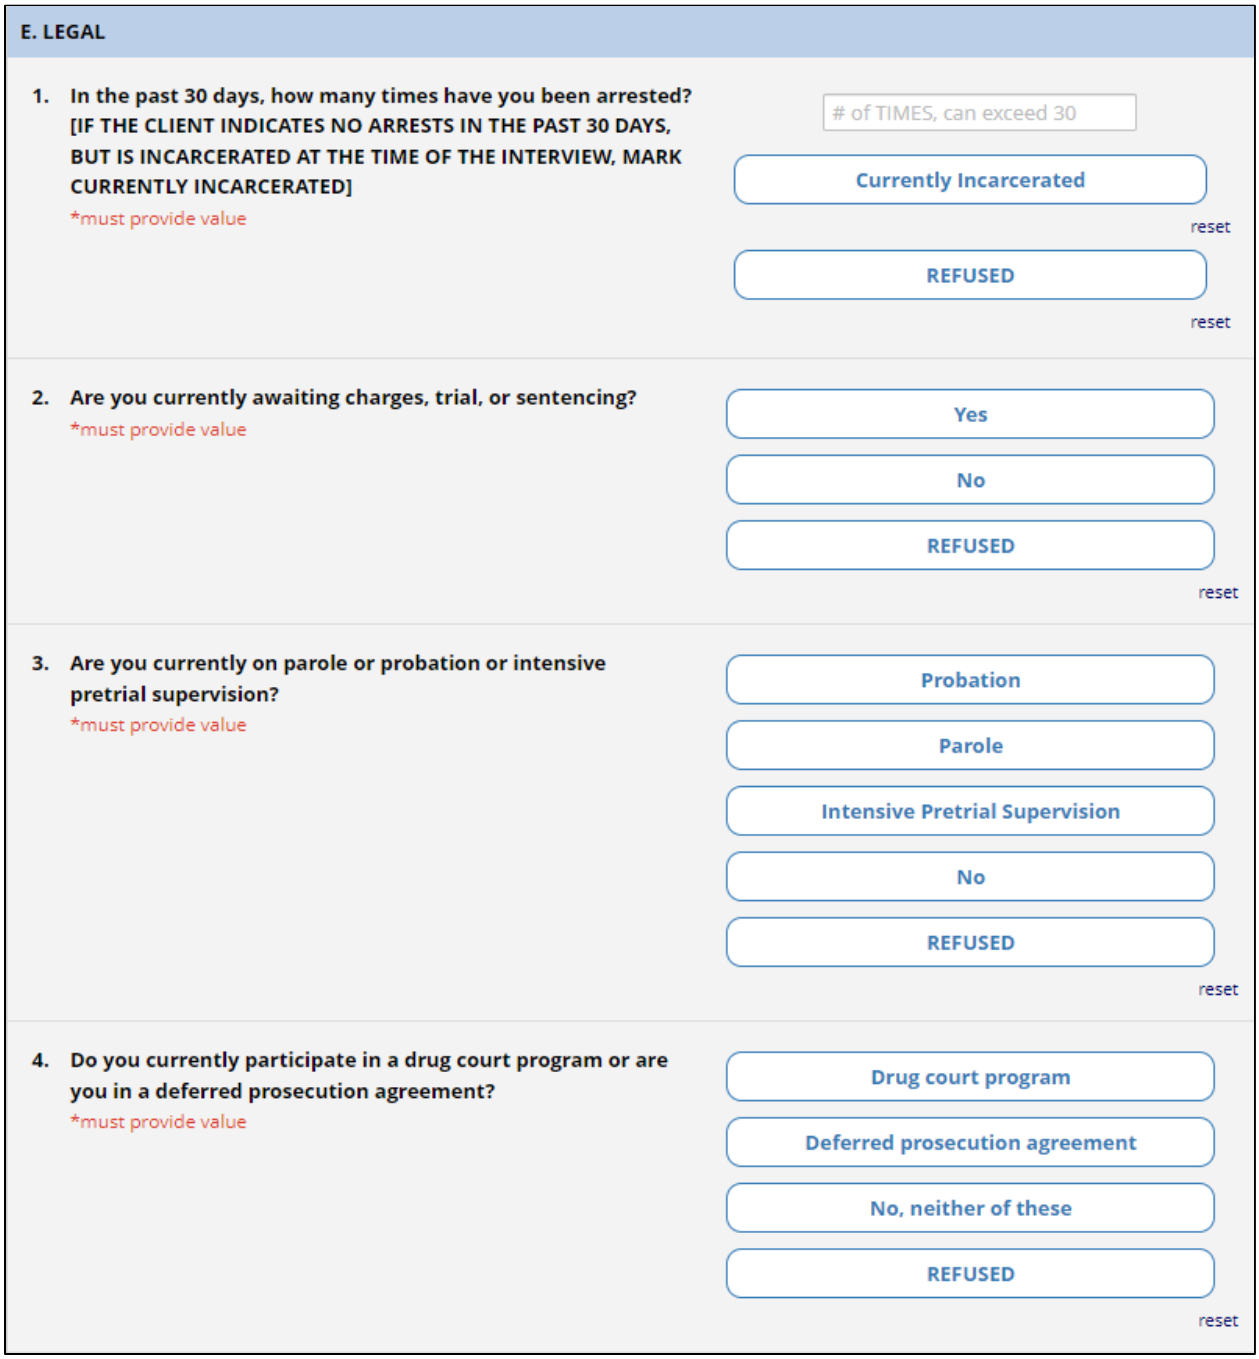
5. **What is your personal annual income, meaning the total pre-tax income from all sources, earned in the past year?**
*must provide value

- $0 to $9,999
- $10,000 to $14,999
- $15,000 to $19,999
- $20,000 to $34,999
- $35,000 to $49,999
- $50,000 to $74,999
- $75,000 to $99,999
- $100,000 to $199,999
- $200,000 or more

Guidance

» Select the responses the client indicates.

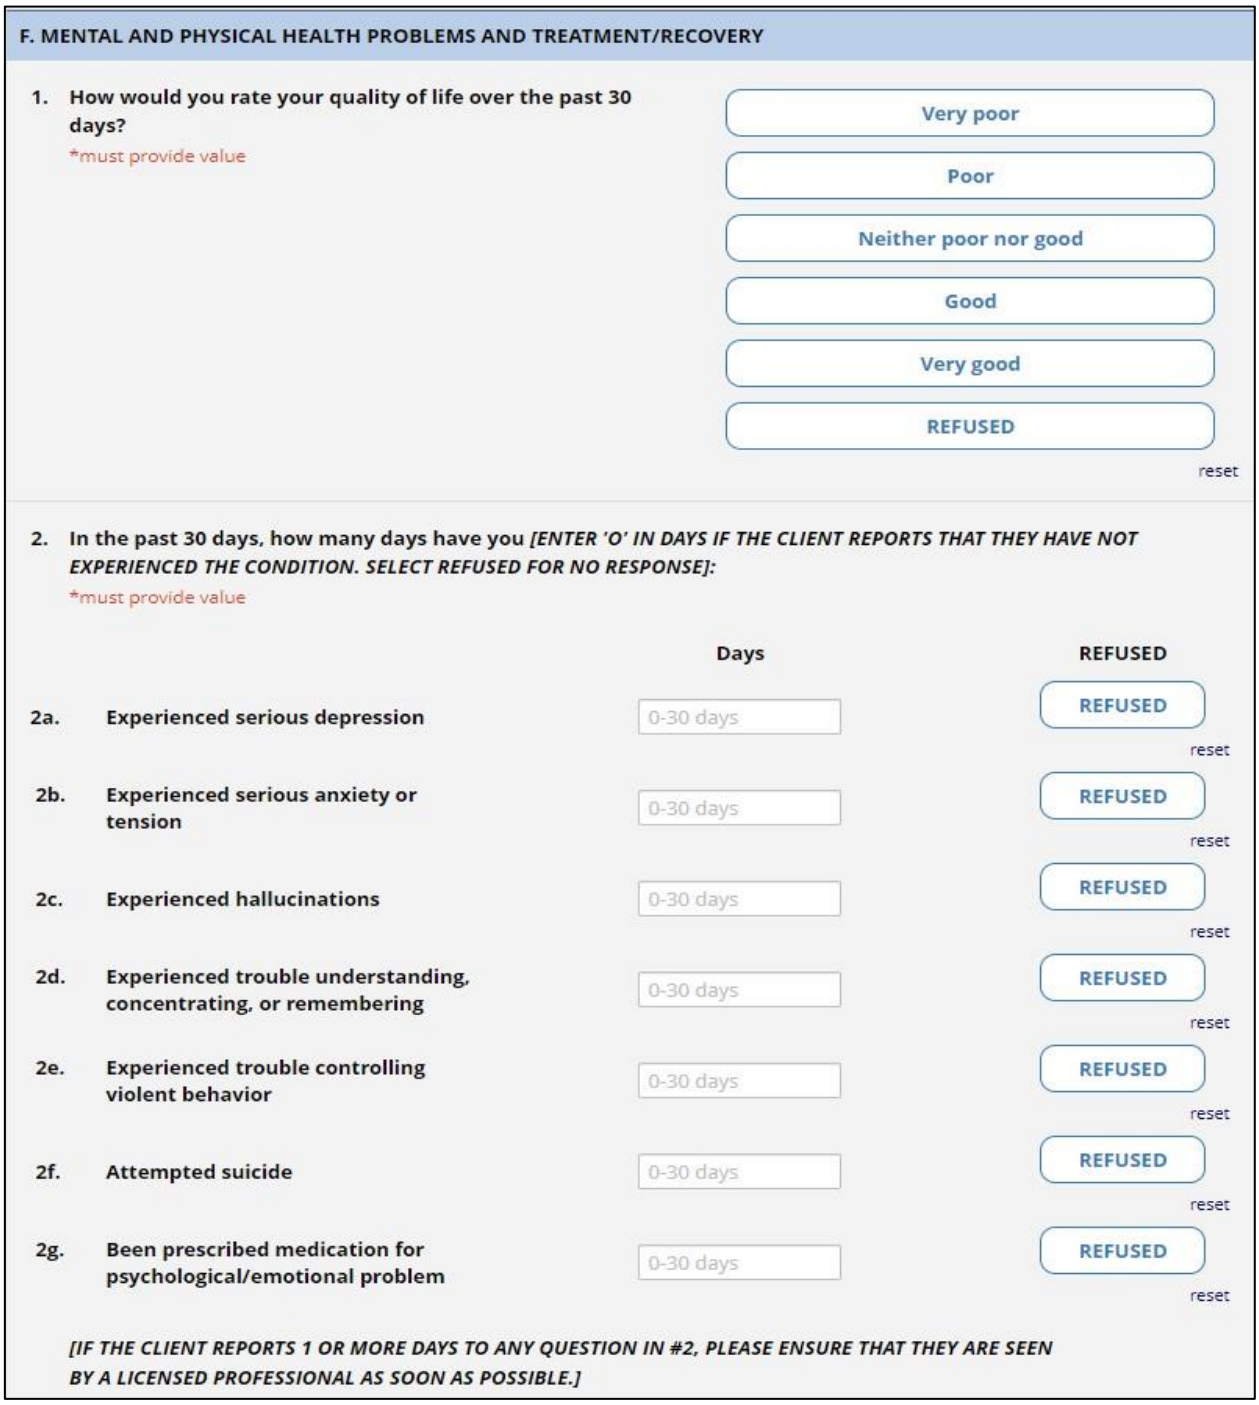
Section E, Legal



Guidance

» If the client has been arrested in the last 30 days, record the number of times.

Section F, Mental and Physical Health Problems and Treatment/Recovery



F. MENTAL AND PHYSICAL HEALTH PROBLEMS AND TREATMENT/RECOVERY

1. How would you rate your quality of life over the past 30 days?
*must provide value

Very poor
Poor
Neither poor nor good
Good
Very good
REFUSED
reset

2. In the past 30 days, how many days have you *[ENTER '0' IN DAYS IF THE CLIENT REPORTS THAT THEY HAVE NOT EXPERIENCED THE CONDITION. SELECT REFUSED FOR NO RESPONSE]:*
*must provide value

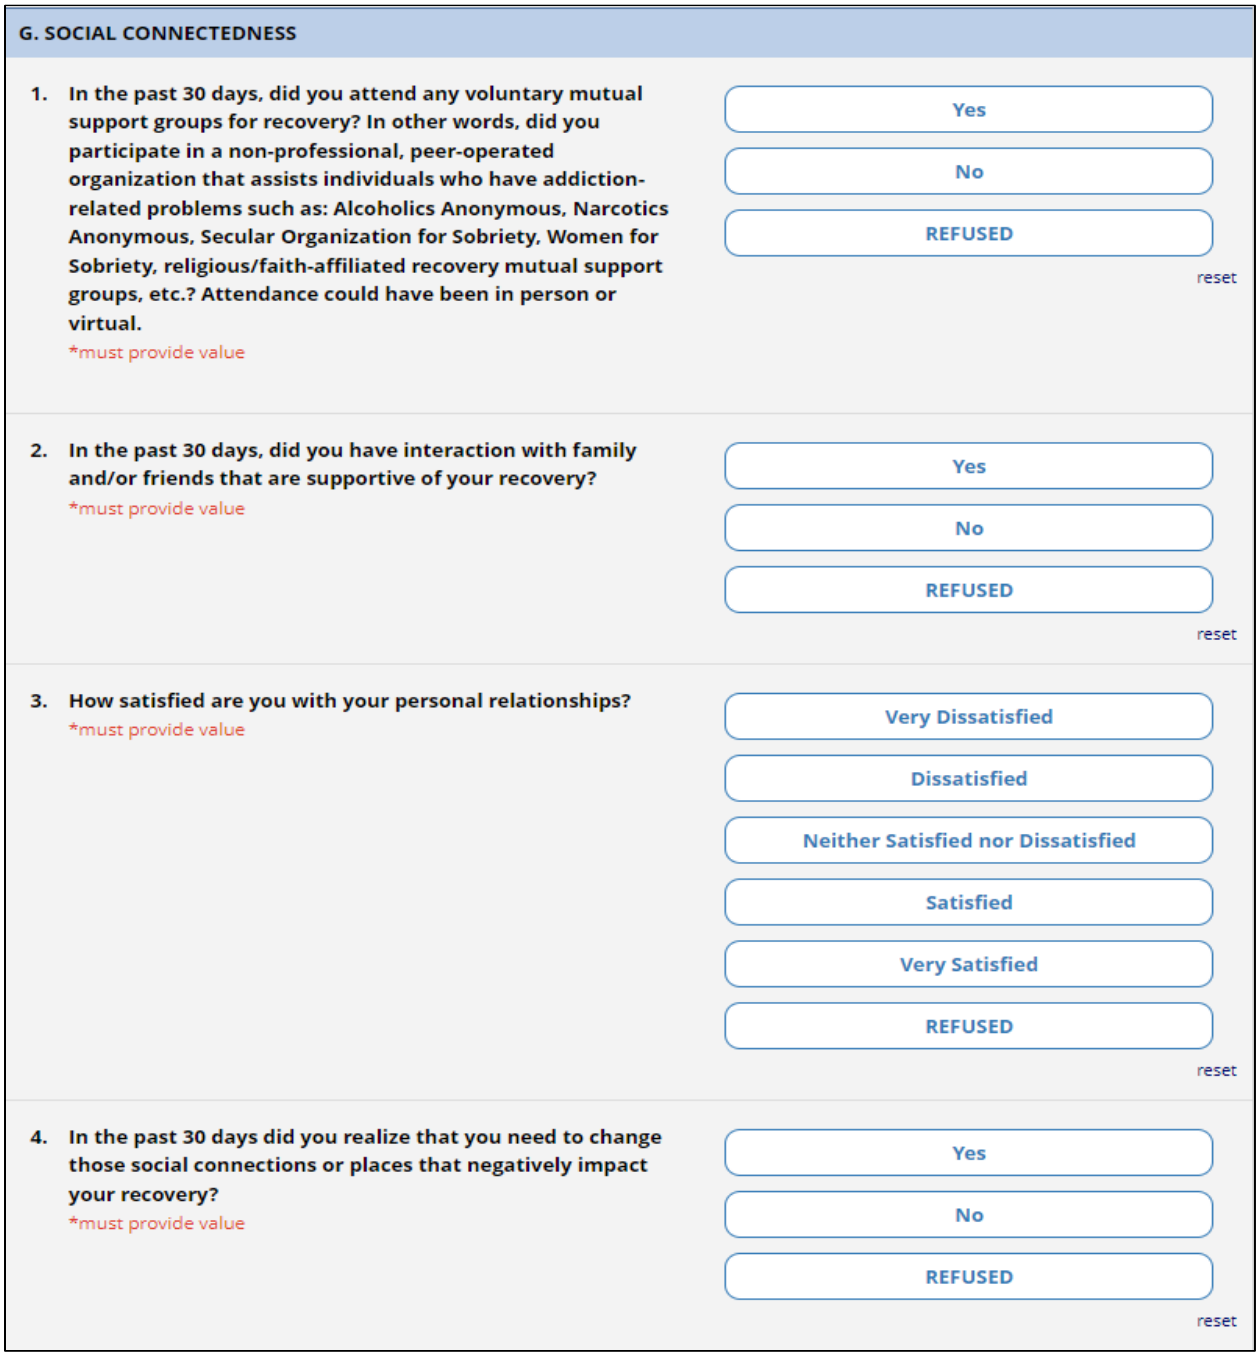
		Days	REFUSED
2a.	Experienced serious depression	0-30 days	REFUSED reset
2b.	Experienced serious anxiety or tension	0-30 days	REFUSED reset
2c.	Experienced hallucinations	0-30 days	REFUSED reset
2d.	Experienced trouble understanding, concentrating, or remembering	0-30 days	REFUSED reset
2e.	Experienced trouble controlling violent behavior	0-30 days	REFUSED reset
2f.	Attempted suicide	0-30 days	REFUSED reset
2g.	Been prescribed medication for psychological/emotional problem	0-30 days	REFUSED reset

[IF THE CLIENT REPORTS 1 OR MORE DAYS TO ANY QUESTION IN #2, PLEASE ENSURE THAT THEY ARE SEEN BY A LICENSED PROFESSIONAL AS SOON AS POSSIBLE.]

Guidance

- Ensure that client is seen by a licensed professional as soon as possible if they report one (1) or more days to any question in #2.

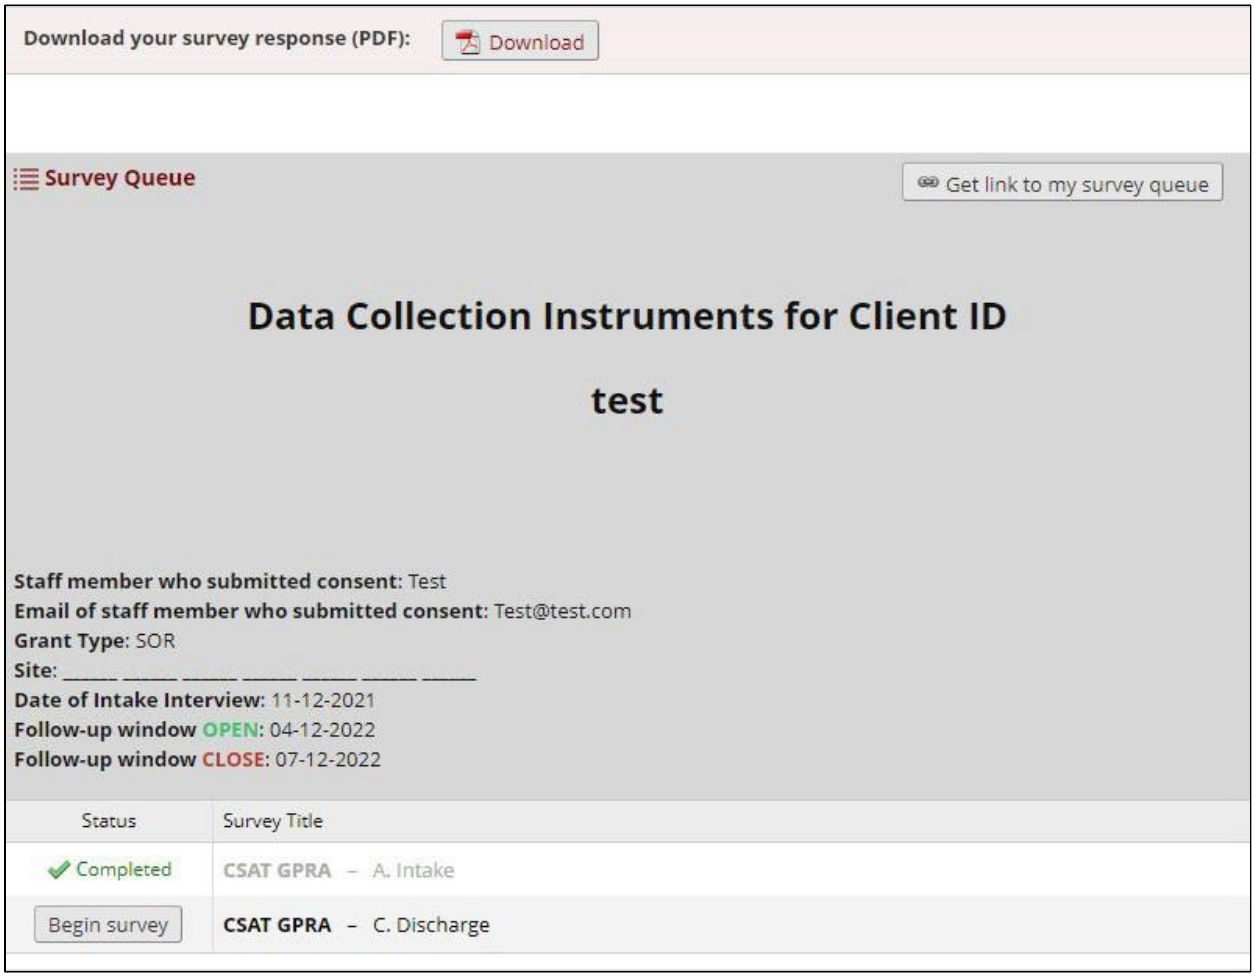
Section G, Social Connectedness



Guidance

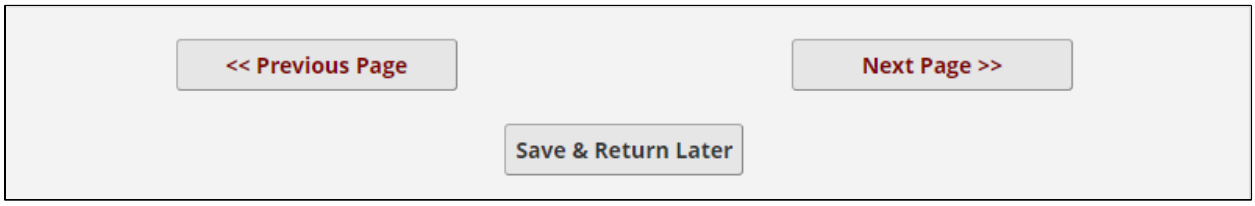
» Select the responses the client indicates.

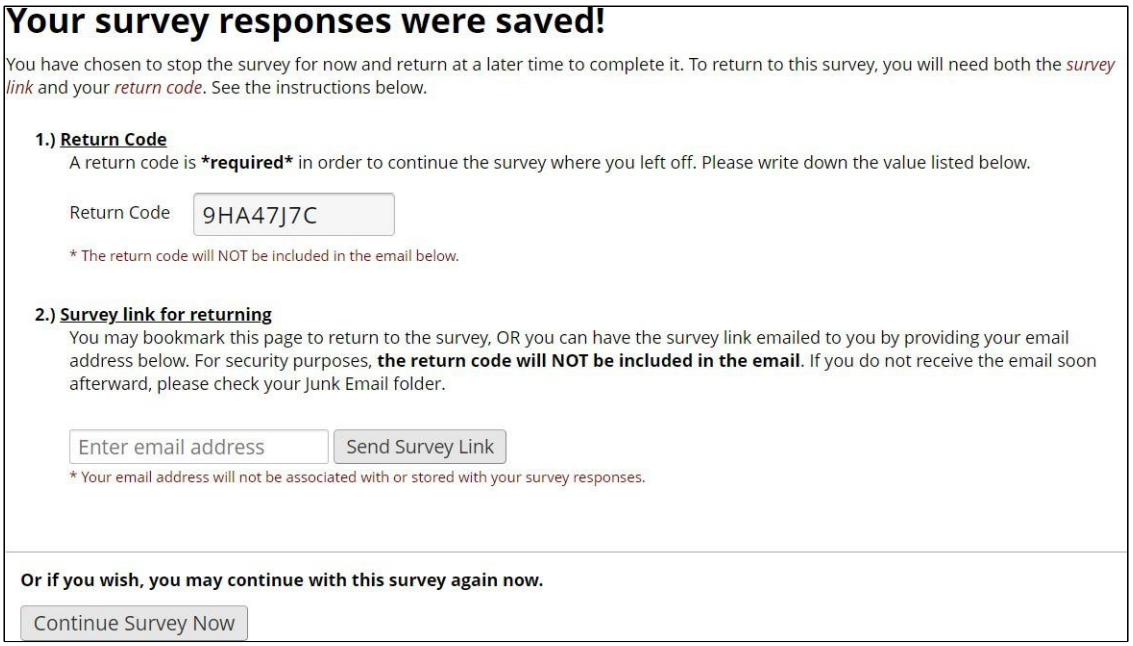
Conclusion



- You have now reached the end of the survey. At the top of the page, there will be an option to download a PDF of the answers submitted. Please download this PDF and keep for your records.
- Please track all submissions in your own tracking system such as an Excel spreadsheet or EHR system.

Save and Return Function





- There is a “Save & Return Later” option at the bottom of every page of the survey.
- A return code will be provided and is needed to return to the survey. **Write down the code, email it to yourself, or find a different way to save it as it will not be sent in the return link email.**

Using Save & Return to Allow Two Survey Completers

- It is possible to use “Save & Return” to allow two survey completers. To use this function, the first person will save and send the return link email to themself. Once received, they may forward the email along with the client ID for the survey and the return code to the individual who will be finishing and submitting the survey. **It is essential the return code is added into the forwarded email because it is not on the original email sent from REDCap.**

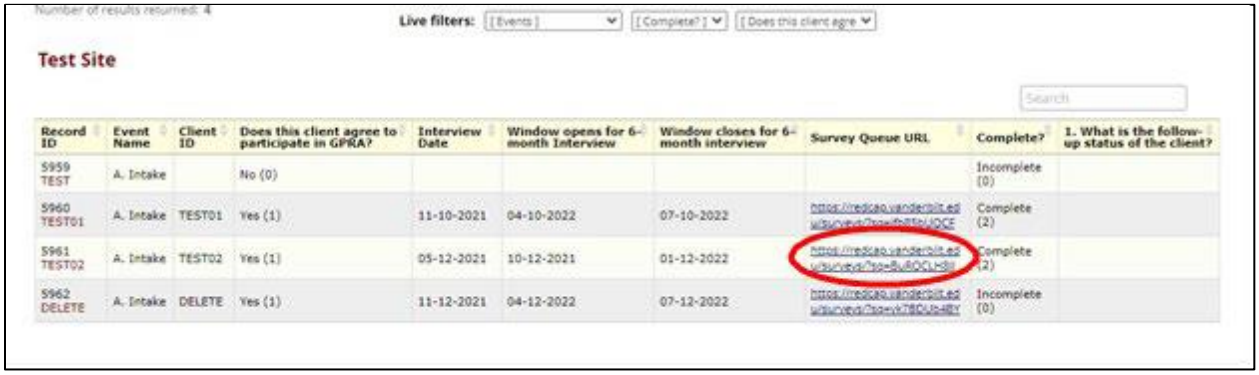
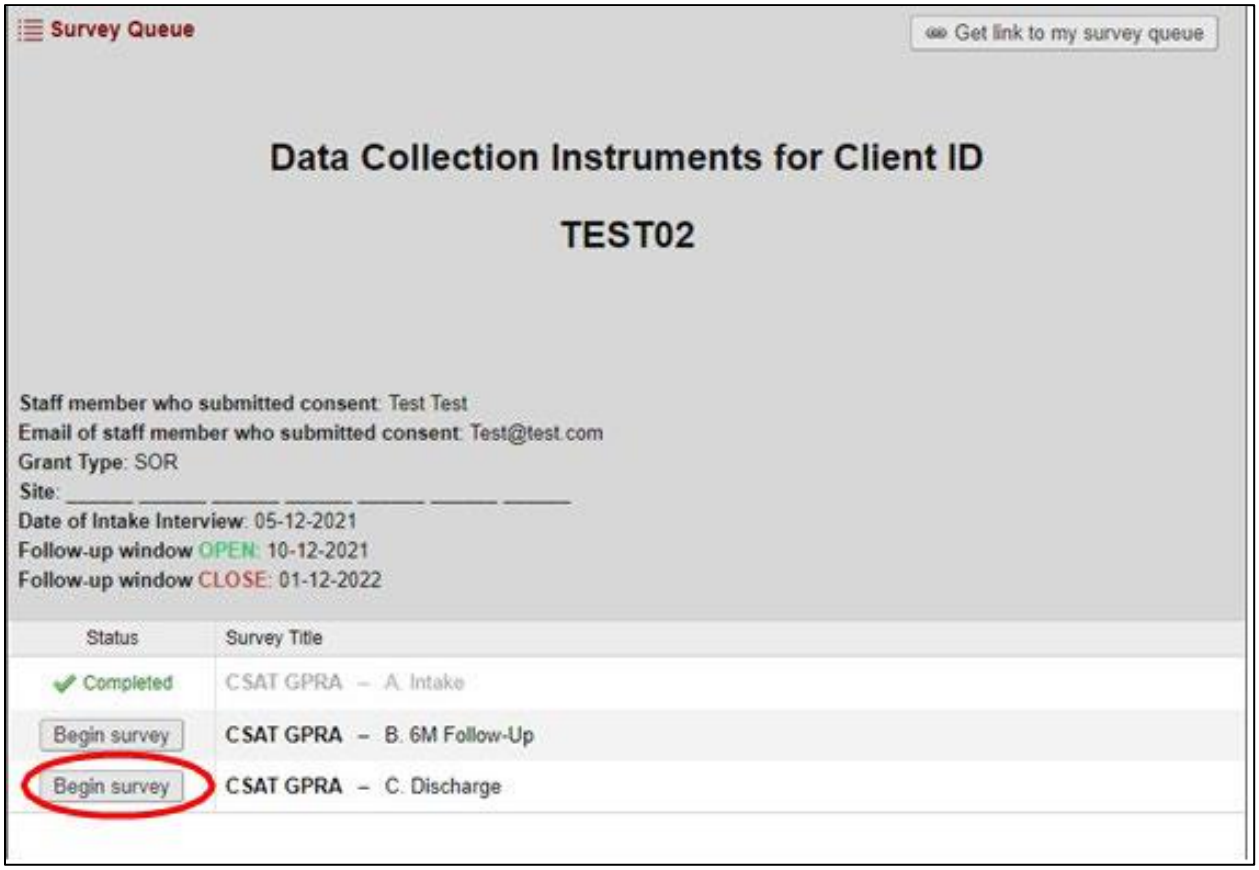
Discharge Survey



Guidance

- To complete the discharge, find the associated Client ID on the left side of the reports page. There will be a survey queue connected to that Client ID. Select the survey queue.
- Once the survey queue is selected, the link will show an option to “Begin survey” for the discharge.



Site Identifiers and Reports Pages for SOR Grantees

- **SITE ID:** Use the site ID listed for your site to create the client ID. Here we have used "1234" as an example unique identifier - please come up with a unique identifier convention for your site that you will use to identify clients. The full client ID can be up to 15 characters.
- **INTAKES**: Use https://redcap.link/CollectGPRAData to begin a new client intake.
- **FOLLOW-UP and DISCHARGE**: Use your site-specific report link below to complete follow-ups and discharges.
