Hub & Spoke System Grantee Profile:
Aegis Treatment Centers (Marysville)

The California Hub & Spoke System (CA H&SS) is a component of the California Medication Assisted Treatment (MAT) Expansion Project, and is being implemented as a way to improve, expand, and increase access to MAT services across the state. Each CA H&SS consists of a "Hub" that serves as the addiction center of expertise, and multiple "Spokes" that act as clinical service providers.

About:

The Marysville Hub is an Aegis Treatment Center that recently relocated to a new facility. The facility offers MAT, individual and group counseling, case management, and crisis intervention services. Aegis Treatment Centers focuses on treating the whole person. 80% of all Aegis patients are opiate free after 90 days.

INNOVATIONS

Increasing Access to MAT in Rural Counties. Aegis Treatment Centers is increasing access to MAT in the rural counties of Yuba, Lake, Mendocino and Nevada where overdose rates are among the highest in the state.

Community Outreach. Aegis Treatment Centers' community outreach efforts include hosting Hub Open House Events that are open to the public to promote stigma reduction and introduce treatment to the rural communities. Outreach includes local media outlets that are identified as particularly capable of reaching target populations. Examples include specific newspapers, free papers, radio stations, movie theaters (pre-show slides), and free public access TV channels. Community advertisement is also utilized to engage and inform communities of opioid epidemic and services available in their community.

Coalition Support. Aegis Treatment Centers actively coordinates with and participates in local SafeRx, Drug Free, and Opioid Coalitions such as; Sierra Medical Foundation-Placer and Nevada Safe Rx, Lake Safe Rx, Mendocino/Fort Bragg Safe Rx, Yuba Sutter Health Council Opioid Coalition, Southern Mendocino County Opioid Coalition, CoRR Youth Based Prevention Opioid Coalition.

Social Media. Social media activities include an official Facebook page that has information specific to CA H&SS target populations. Spokes are provided support to provide relevant CA H&SS information to their communities through their websites. Coalition websites will be updated frequently to include relevant information regarding the CA H&SS in their communities.

Electronic Medical Records (EMR) System (PHASE). Aegis Treatment Centers is building upon its PHASE EMR system. Aegis Treatment Centers is in the initial stages of developing a mobile app (AegisConnect) that will assist in better connecting patients with clinical and medical staff. The mobile app is expected to additionally improve communications between providers and patients in remote Hub or Spoke locations by integrating information from existing patient records and scheduling.
